June 2011

Redline Buying Group

Members of the Redline Buying Group will be able to purchase uniforms from Red the Uniform Tailor through an online corporate store tailored to your company's specific needs. The following options will exist:

- Approved uniform choices
- New Hire packages
- Employee allowances or allotments
- Optional embroidery/patches
- Value-added product above and beyond allowances/allotments
- Personal Credit card purchases beyond approved limits
- Corporate purchase order releases

This document showcases the product line which each company should use to create its own company store. Employees will sign in with an employee number and a linked job description, that takes them to your company store, and they will only be offered the option of selecting uniform items that have been approved for use by your company. In addition to the core items that make up your allowance/allotment profile, employees will be allowed to select from value-added items, that you have approved for them to purchase using their own credit cards.

Core items include:

- Shirts
- Pants
- Jackets
- Vests

Value-added items include:

- Rainwear
- Outerwear
- Shoes/boots
- Performance wear
- Accessory items

The pages that follow show a sampling of the product that will be available. Please note that what might be a core allotment for one company and/or department, could fall into the value-added section for another.
