FEATURES

ANALYTICS

Analytics are configured to fit your operations model. Select from a set of existing analytics or we can build analytics tailored for your specific need.

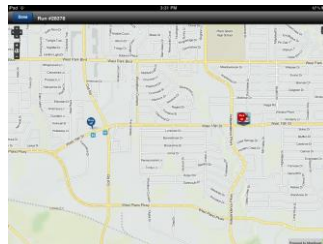

ACTIVE UNITS

Monitor Units that are active in the field. Keep track of vehicle locations, crew assignment and get details on each trip the unit has been assigned during the day.

TRACK VEHICLES AND TRIPS

View vehicle location and call pickup and drop off locations on our maps simply by selecting a "pin drop" icon anywhere in the app.

KEEP TRACK OF CREW

Keep track of crew, how many unit hours they have worked in a pay period, monitor their certification status, and recall their contact information.

STAY INFORMED WITH PUSH NOTIFICATIONS

Stay informed with Push Notifications sent directly to your mobile device. Notifications will alert you of critical events that occur in your operation!
